

DIEGO ARANDA GÓMEZ

Madrid | +34 639 436 171 | 7.40diego@gmail.com | diego740.github.io | linkedin.com/in/diego-aranda-gomez

Education

U-TAD (Centro Universitario de Tecnología y Arte Digital)

Madrid, Spain

Bachelor's Degree in Software Engineering, GPA: 8.3/10

Sep 2022 – Expected Jun 2026

Selected academic highlights: Computer Networks (High distinction, 9.7/10), Algorithms (9.6/10)

Certifications

OSCP (Offensive Security Certified Professional) – *Expected Summer 2026*

Appian Certified Associate Developer – *Mar 2026*

Technical Projects

Smart Thermostat Security Audit | IoT, Pentesting, Reverse Engineering

- Performed an end-to-end security assessment of a smart thermostat ecosystem across hardware interfaces, mobile application flows, and cloud components.
- Identified critical vulnerabilities including backend remote code execution (RCE), plaintext local credential storage, and hardcoded API keys.
- Documented findings and likely attack paths to support remediation prioritization.

Metadata Analyzer & Threat Correlator | Python, AI, Cybersecurity

- Built a Python-based tool to extract, sanitize, and analyze file metadata to improve privacy and detect suspicious patterns.
- Designed analysis logic to correlate anomalous metadata signals associated with possible leaks, tampering, or risky document provenance.

Collaborative Workspace Manager | React, Node.js, MongoDB

- Built a full-stack web application for workspace reservation and project management, delivered successfully to a real-world client.
- Implemented Agile methodologies and Continuous Integration/Continuous Deployment (CI/CD) pipelines to ensure reliable and iterative software updates.

Professional Experience

Capgemini

Madrid, Spain

Software Engineering Intern (BPM Department)

Oct 2025 – Present

- Contributed to the development and improvement of business process models for enterprise clients in a BPM environment.
- Refactored and upgraded a legacy enterprise application, fixing bugs and implementing new functionality in a proprietary platform.
- Earned the Appian Certified Associate Developer certification within 3 months of joining the project.

Skills

Programming: Python, JavaScript, Java, C, C++, Bash, PowerShell, Appian.

Security: Pentesting, Forensics, Hardening, Reverse Engineering, MITRE ATT&CK, OWASP.

Infrastructure & Systems: Linux, AWS, Docker, Kubernetes.

Web & Data: React, Node.js, SQL, MongoDB.

Languages

Spanish (Native)

English (Professional proficiency)

Awards & Extracurriculars

High-performance alpine skiing program

- Balanced demanding academic work with a high-performance competitive sports program.
- Developed discipline, resilience, and consistency under pressure through sustained training and competition.
- Strengthened teamwork through close collaboration with coaches and teammates in a demanding environment.

Offensive security practice

- Regularly practice offensive security through CTFs and labs focused on enumeration, privilege escalation, web exploitation, and post-exploitation.
